

It's time for CTWC's 9th Annual Golf Tournament! This year it will be held at the exclusive **Lakecliff Golf Club** in Spicewood, TX on **September 30th**. Players will enjoy breakfast while warming up with local golf pros, followed by a fun day of golf, along with several contests, and the awards reception. For our non-golfers, there will be an option of a wine tasting with food pairings, as well as pre-holiday shopping. **But this is more than just golf** - this event helps fund a significant portion of our annual operating expenses. We greatly appreciate the generosity of individuals, foundations, and corporations who sponsor our event and support our efforts to ensure that water stays in the lakes to keep them viable today and well into the future.

Our Water Supply in Central Texas is increasingly coming under pressure as demands from growth multiply and the water from our inflows dwindle. Today our lakes sit at 58% Combined Storage, and Lake Travis is still down 38 feet. We are still experiencing a significant drought, heading into another hot, dry August with La Nina on the horizon once again. Central Texas Water Coalition (CTWC) is dedicated and focused, working tirelessly on ensuring a sustainable water supply for Central Texas, for our kids and our grandkids. We are advocating for a stronger LCRA Water Management Plan that is more protective for the 2 million people that live in our region. We are also working with our elected officials, both State and Local, to identify and change laws and legislation that focus on conservation, as well as how our water is used and sold today. We continue to work with LCRA and our Texas Water Development Board Regional Planning Group, Region K, to preserve tomorrow.

June marked CTWC's 13th Anniversary as a non-profit organization dedicated to working to identify major issues and working with the system to find and implement workable solutions. CTWC is actively working with all the water planning systems, representing you in front of water agencies and the legislature. We are advocating for your water in the Highland Lakes. Please consider becoming a sponsor of our golf tournament or if you can't make it, please make a donation to help us continue our vital work.
